

## UTMSI Summer Fellowship Opportunities, 2025

**Sponsored by:** *Michael F. Koehl, M.D. Endowed Excellence Fund for Undergraduate Research Fellowship fund & Timothy David Baker Endowed Scholarship in Marine and Freshwater Biology*

**Details:** Fellowships to complete a summer research project are available to undergraduates majoring in biology. Preference will be given to undergraduate students who have either completed Semester by the Sea or May Term to continue research projects in the summer (June – mid August) at the Marine Science Institute in Port Aransas, Texas. The fellowship amount depends on the number of applicants but will likely be in the range of \$750 - \$2,250.

**Selection:** The mentoring UTMSI faculty or PI, must notify Sally Palmer by **April 1, 2025** of the interested student and confirm the faculty/PI's commitment to the summer project along with a 300-500 abstract written by the student fellowship applicant. If additional funds are available a second announcement will be made late May, 2025.

**Deliverables:** Family Educational Rights and Privacy Act (FERPA) form. Upon conclusion of the project, the student awardee shall send a summary of their project results, not to exceed one page, to [Sally.palmer@utexas.edu](mailto:Sally.palmer@utexas.edu) by August 31, 2025.
