

UTMSI Summer Fellowship Opportunities, 2026

Sponsored by: *Michael F. Koehl, M.D. Endowed Excellence Fund for Undergraduate Research Fellowship fund*

Details: Fellowships to complete a summer research project are available to undergraduates majoring in biology. Preference will be given to undergraduate students who have either completed Semester by the Sea or May Term to continue research projects in the summer (June – mid August) at the Marine Science Institute in Port Aransas, Texas. The fellowship amount is \$2,000.

Selection: The mentoring UTMSI faculty or PI, must notify Sally Palmer by **May 22, 2026** of the interested student and confirm the faculty/PI's commitment to the summer project along with a 300-500 abstract written by the student fellowship applicant.

Deliverables: Family Educational Rights and Privacy Act (FERPA) form. Upon conclusion of the project, the student awardee shall send a summary of their project results, not to exceed one page, to Sally.palmer@utexas.edu by August 31, 2026.
